

Arapaho

DESIGNS

A traditional shed porch greets visitors arriving at our Arapaho, where an airlock entrance leads into a feature-filled log home. The spacious greatroom faces the rear of the house making the design ideal for lots that offer a rear walkout or view. Add its other features such as a breakfast counter, two-car garage, main level utility room and large pantry for a great log home value. Its size and one-floor layout make it ideal for retirement or someone who doesn't want the burden of stairs.

Ideal for a lot with a back view.

1556 sq. ft.
