

Bonanza

Traditional looks and an efficient floor plan bring old-fashioned value to our Bonanza. Start with the warmth and coziness of a one floor home highlighted by a large master bedroom and central greatroom. A galley kitchen with adjoining laundry facilities and exterior entrance control the passage of muddy feet and allow direct access with groceries. If you need more room you can increase space dramatically and create a lodge-like elegance by adding the optional twin lofts joined by a sky walk bridging living and dining room.

Traditional looks and flexibility mean old fashioned value.
