

Hampton

DESIGNS

A rustic charm graces our Hampton. A full length covered porch and three gabled dormers give a nice country flavor. Inside, the floorplan captures the features many people look for in a log home. A loft over the dining room provides a comfortable overlook into a living room crowned by a cathedral ceiling. The main floor master bedroom and utility/laundry room make this an ideal retirement or "empty nester" home.

A traditional lodge look with a contemporary interior.
