

Lakeview

DESIGNS

*C*ontemporary design distinguishes our Lakeview. From the exposed beam truss over the front porch to the angled baths and bedroom entryways, the floorplan focuses on lifestyle. The greatroom is large with an easy flow into the kitchen and family room. Bedrooms are well situated for privacy. The overall design is oriented toward a site with a view. The prowed family room with its expanse of glass is ideal for capturing spectacular lakeside or mountain vistas. Add the optimal deck and the Lakeview merges seamlessly with its outdoor setting.
