

Lauderdale

DESIGNS

You don't need an ocean view to enjoy the features of our Lauderdale. Originally designed for the informality of lakeside living, it is equally at home as a weekend ski retreat or country cottage. The Lauderdale is designed to blend indoor and outdoor living. Sliding glass doors from living room and master bedroom open onto a large front deck. Two large bedrooms have ample closet space for clothes and recreation gear. A centrally located laundry eliminates running up and down stairs, while exposed beam trusses accent the greatroom cathedral ceiling and give a rustic look to the exterior.

*Lakeside or mountainside,
anywhere with a view.*

1147 sq. ft.
