

Stonecrest

DESIGNS

Our Stonecrest is an ideal smaller home or vacation retreat for a couple or individual that likes one floor living with an occasional overnight guest. A casual kitchen is graced by a large bay window opening onto a covered wrap-around porch. A loft overlooking the greatroom and dining room adds a feeling of space. With the main living area oriented toward the back of the house, the Stonecrest sits well on sites with a rear view. A spacious master bath brings large home luxury to a smaller home.

Contemporary comfort in a modest package.
